# Electric Motors

**Quality Products. Right Price. Right Now.**

## IDC Select® motors are built to perform!

- Rugged cast iron motors are designed to meet the demands of today's toughest applications. Available in premium efficient NEMA B and crusher duty NEMA C TEFC designs with an IP 55 ingress protection rating.

- Our 1/3 HP to 10 HP inverter rated stainless steel motors are made from 304SS and come with an IP 66 ingress rating that's impervious to rust and deterioration. Available in C-face footed and footless designs.

- Single-phase motors have a class IP 55 ingress protection for great service life. Available in 1/3 HP to 10 HP TEFC footed and C-face footed designs.

- Designed for damp, dirty environments, three-phase motors offer an IP 55 ingress rating. They are available in 1/3 HP to 10 HP TEFC footed, C-face footed, and footless models.

- Farm duty motors are built for harsh environments. Available in 1/3 HP to 10 HP TEFC footed designs with an IP 55 ingress rating. Manual overload is standard on 1/3 HP to 5 HP motors.

**Ask your local AD Distributor about their broad inventory of high quality, competitively priced IDC Select® products.**
